KPL Fluorescent Mounting Media

PART CODE: 5570-0005 (71-00-16)
LOT NUMBER: **10601121**
SIZE 15 mL

DESCRIPTION KPL Fluorescent Mounting Media is a glycerol-based solution containing an inhibitor that retards photo-bleaching of fluorochromes. It is not a permanent mounting medium. It does not contain p-phenylenediamine or alcohol.

FORM/STORAGE Liquid. Store tightly capped at room temperature.

USE After tissue sections or other cellular preparations have been reacted with fluorochrome-labeled reagents and washed thoroughly, place a drop of KPL Fluorescent Mounting Media on specimen. Coverslip and evaluate as soon as possible.

STABILITY The substrate is stable for one year from date of receipt when stored properly. The substrate will appear clear to light blue after extended storage. The product's stability and performance are not affected by variations in solution color.
