

CERTIFICATE OF ANALYSIS

HistoMark[®] ORANGE

CATALOG NO. 54-74-00
LOT NO. 10181040
SIZE 1000 Slides

DESCRIPTION

The HistoMark[®] ORANGE Substrate System is an enhanced metal-bridging DAB procedure for visualization of horseradish peroxidase (HRP)-labeled reporter reagents. The substrate system provides a reddish-orange specific stain with green counterstain for immunohistochemical staining. This procedure employs nickel/catachol-based DAB enhancement, providing improved contrast compared to standard DAB procedures.

FORM/STORAGE

Liquid. Store components refrigerated at 2 - 8°C.

CONTENT

This system contains the following five components:

1 x 50 mL Histo Enhance-Orange Solution Catalog No. 71-00-07
Lot No. 150272 Date of Manufacture: 04/15/2015

1 x 10 mL Histo DAB-C Solution Catalog No. 71-00-13
Lot No. 10164493 Date of Manufacture: 02/05/2016

1 x 10 mL Histo Peroxide Solution Catalog No. 71-00-09
Lot No. 150448 Date of Manufacture: 07/16/2015

1 x 10 mL Histo Blocking Solution Catalog No. 71-00-10
Lot No. 10164419 Date of Manufacture: 02/03/2016

1 x 50 mL Histo Contrast GREEN Solution Catalog No. 71-00-11
Lot No. 150271 Date of Manufacture: 04/22/2015

STABILITY

Product is stable for a minimum of one year from date of receipt.

Quality Assurance Verified and Approved:

A handwritten signature in black ink, appearing to read 'Christina Quinonez', is written over a white background.

Date: 03/23/2016
