

CERTIFICATE OF ANALYSIS

Normal Rabbit Serum (10%)

CATALOG NO. 71-00-28
LOT NO. 10172923
SIZE 50 mL

DESCRIPTION Normal Rabbit Serum (10%) is used as a blocking solution in immunoassays on tissue sections, where the secondary antibody was produced in rabbit. It can also provide an alternative to bovine serum albumin (BSA) and non-fat dry milk in ELISA and Blotting assays. It is effective in reducing nonspecific binding of proteins to reaction surfaces, thereby maximizing signal-to-noise ratio.

FORM/STORAGE Liquid. Store refrigerated at 2 - 8°C.

CONTENT Product contains 50 mL of heat-inactivated 10% (v/v) normal rabbit serum.

STABILITY Product is stable for one year from date of receipt when stored properly.

DATE OF MANUFACTURE 03/03/2016

Quality Assurance Verified and Approved:

A handwritten signature in black ink, appearing to read 'Christina Quinonez', is written over a white background.
